*The featured bathroom in the 2006 National Home Show Dream Home was absolutely spectacular! Karam Kappapa is a design genius! His insight into form and function along with his instinct for mixing colours, textures and finishes made this room one of the highlights of the house. His team from Bathroom Solutions was a delight to work with making the project run smoothly from beginning to end.*

Kendall Christie, Project Manager  
National Home Show

*Kitchensolutions.ca was an integral part of the Renovation & Décor magazine Kitchen Stage, a highly acclaimed feature at the Metro Home Show. The kitchen feature was executed in a very professional manner and according to research was one of the most successful features at the show. Karam Kappapa's presentations drew some of the largest audiences and kept people seated the longest. Breakfast Television chose the kitchen stage as its base to shoot two segments, and the exposure increased attendance. We have requested Karam Kappapa, kitchensolutions.ca and bathroomsolutions.ca be a part of our next year's show and look forward to working with them in the future.*

Janine Saperson, Manager  
Metro Home Show

*"We have had the pleasure of working with Karam Kappapa on several of our feature stages for the National Home Show. Karam is extremely creative and has built the most talked about features of the show! Whether it is a kitchen or bathroom Karam puts his own personal interpretation on the latest trends in architecture and design. We thoroughly enjoy working with Karam and his dynamic team and can't wait to see his next project."*

Christine Nattrass, Show Manager  
National Home show
